

Terminating a Committee

Campaign and unsuccessful candidate committees are required to terminate their committees within 30 days after the election or upon satisfaction of all committee debt. Successful candidate committees must update their election information (by filing an [Amended Statement of Committee Organization](#)) before accepting any future contributions or may terminate their committee at any time.

View the [Terminating a Committee](#) brochure to determine:

- if you are required to terminate your committee
- the steps involved in terminating a committee and
- what you are allowed to do with excess funds

If your committee has more debt than money on hand and you intend to raise funds to pay off the debt, the brochure provides details for converting to a debt service committee.
